STAIR ACCESS

# THE NEW ALTO UNIVERSAL SCAFFOLD STAIR

## VERSATILE COMPLIANCE

The Alto Universal Scaffold Stair meets or exceeds all applicable standards and is designed to provide simple, versatile, practical, cost effective access for the scaffolding industry.

Five units cover lift heights from 730mm to 3430mm.

## HIGHLY DURABLE

Made of corrosion resistant structural quality aluminium with specially extruded tread elements, the Alto Universal Scaffold Stair is designed to be stronger and longer lasting in the harsh environment of the construction site.

Safety and durability are the hallmarks of all Alto Access Products and the Alto Universal Scaffold Stair continues this tradition.

## VITAL STATISTICS

The Alto Universal Scaffold Stair is available in 5 standard sizes.

Model	Number of Steps	Minimum Lift*	Maximum Lift*	Weight
US-011	4	732mm	1001mm	20kg
US-012	6	1030mm	1493mm	27kg
US-013	9	1477mm	2106mm	38kg
US-014	12	1925mm	2769mm	56kg
US-015	15	2372mm	3431mm	65kg

\* Lifts are measured from the ground to the top of the scaffold tube that the stair is being hooked on to.

### 1 EASY FIT

Designed to match 48mm scaffolding and requiring only a podger to lock the mechanism, the Alto Universal Scaffold Stair unit is simple to install.

### 2 EASY FIX

Standardised components and bolted construction mean that the product is simple to maintain and repair in-house.

### 3 EASY LOAD

Folding flat to a commendably small envelope – the Alto Universal Scaffold Stair unit makes storage and delivery that bit more simple.

# MAKE THE SAFEST CHOICE

- Designed to give scaffolders a cost effective stair access solution with practical, reliable and compliant equipment
- The Alto Universal Scaffold Stair copes admirably with varying lift heights and floor levels, giving level treads across the permitted range of stair angles
- Made to fit 48mm tube and fitting scaffolding. With this product you can quickly install a fully compliant stair access to your scaffold
- The Alto Universal Scaffold Stair can be installed using only a podger to operate the locking mechanism
- 5 standard models in the range spanning 0.7m to 3.36m lift heights
- Compliant handrails are available for all height variations
- Made with standardised components and an all-bolted construction, the Alto Universal Scaffold Stair can be maintained by any competent operator
- With a clear width of 630mm, the extruded, slip resistant treads and tubular handrails makes using the stair comfortable and convenient for the user
